## Sonic 4 Stroke SL

### Description

Sonic 4 Stroke SL is a premium 100% synthetic engine oil. It is precisely blended to offer superior performance applications. It is specifically designed for non-automotive high output / high rpm four stroke engines.

### Applications

Sonic 4 Stroke SL is specifically designed for non-automotive applications where engine RPM could be double that of automotive applications. These engines are typically found in outboards, snowmobiles, ATV's and motorcycles. This oil is also suitable for use in snowblowers, generators, lawn mowers and garden tractors. Sonic 4 Stroke SL does not include a friction modifier. Automotive engine oils are blended with a friction modifier to make the oils "Energy Conserving". Many non-automotive applications require oil like Sonic 4 Stroke SL with no friction modifier.

### Performance Features

Sonic 4 Stroke SL offers:

- Engine oil performance from -35°C to 35°C
- Improved engine cleanliness
- Superior low and high temperature performance
- Exceptional corrosion protection
- Increased engine life
- Broad range of viscosity applications
- Full synthetic formulation
- Superior anti-wear performance

- One oil for all seasons
- JASO MA (non-friction modified) for motorcycle applications.

### Availability

Sonic 4 Stroke SL is available in 4 litre jugs (4 per case) and 1 litre bottles (12 per case).

### Typical Properties

Colour	Blue
Kinematic Viscosity @ 40°C, cst	118.2
Kinematic Viscosity @ 100°C, cst	17.5
Viscosity Index	177
Pour Point	-48°C
Cold Crank Simulator	4370 @ -30
Viscosity, cP @ °C	7070 @ -35
SG @ 15.6°C	0.854
Phosphorus (% Wt)	0.1300
