**Type "F"**

## Description

Sonic ATF Type F automatic transmission fluid is a highly oxidation resistant long-life fluid specifically designed to meet the high friction co-efficient required by older Ford transmissions.

## Application

Sonic ATF Type F is required by all Ford C4 and FMX automatic transmissions, as well as all pre-1975 C6 Ford automatic transmissions. The Type F fluid can also be used in automatic transmissions of Toyota and Volvo vehicles. Sonic ATF Type F is fully approved for Ford specification ESW-M2C33-F.

## Performance Features

Sonic ATF Type F provides the following performance features:

1. Has a higher friction co-efficient at low idling speeds
2. Oxidation inhibitors to prevent deposits on transmission parts
3. Corrosion inhibitors to prevent acids from attacking transmission parts
4. Does not cause excessive swelling or shrinkage of seals

## Availability

Sonic ATF Type F is only available in 1 litre bottles (12 per case).

## Typical Properties

<b>Colour</b>	<b>Red</b>
<b>Viscosity @ 40°C, cst</b>	<b>37.9</b>
<b>Viscosity @ 100°C, cst</b>	<b>7.7</b>
<b>Viscosity Index</b>	<b>178</b>
<b>Brookfield Viscosity (Cp @ -40°C)</b>	<b>57,000</b>
<b>Pour Point</b>	<b>-39°C</b>
<b>Flash Point</b>	<b>175°C</b>
<b>Zinc Content</b>	<b>0.03%</b>
