## Bio FG Gear Oil

### Description

Sonic Bio FG Gear Oil 150 is a biodegradable and non-toxic gear oil formulated using an H-1 approved additive package. This gear oil is for use in the food processing industry or other areas where USDA H-1 qualified products are required and incidental contact may occur. It is also for consumers who require Hazard Analysis Critical Control Points (HACCP) approved products.

Sonic Bio FG Gear Oil 150 has a biodegradability rating of over 97% that makes it excellent oil for use in areas where the environments is a concern (i.e. forestry industry and urban areas). The gear oil conforms to CFR 21178.3570 specification and does not contain toxic heavy metals.

### Applications

Sonic Bio FG Gear Oil 150 is recommended for use in food processing and harvesting equipment that requires a USDA H-1 FDA CFR 21178.3570 qualified product. A consumer may expect excellent performance in:

- Excellent resistance to oxidation
- Good load capacity
- Excellent thermo-oxidative properties
- Superior protection against rust
- This industrial gear oil is GL-4 approved and has similar viscometrics to a 80W90 gear oil
- No odour and is tasteless
- Excellent protection against shearing
- Excellent demulsibility with water

## Performance Features

- USDA approved: USDA H-1 authorization for incidental contact in the food processing or packaging industry
- Meets FDA REGULATION CFR 21 178.3570
- Biodegradable
- Low Toxicity
- Increases useful life of systems and reduces maintenance fees

## Availability

Sonic Bio FG Gear Oil 150 is available in 20 litre pails.

## Typical Properties

<b>ISO Grade</b>	<b>150</b>
Viscosity @40°C, cSt	150.0
