Sonic Blueguard

Description

Sonic Blue Guard is a premium quality, lithium complex, multi-purpose grease. It has excellent performance in the areas of rust and oxidation resistance, anti-wear, and extreme pressure.

Application

Sonic Blue Guard meets manufacturer's requirements pertaining to:

- Wheel bearings
- Universal joints
- Various industrial applications
- Ball Joints
- Electric motors
- Multi-purpose applications where a standardized product is required
- Clutch throwout bearings
- Chassis fittings

Performance Features

1. *NLGI Classification GC-LB - Grade 2*
 - This is the highest possible standard for a multi-purpose grease
 - Meets the qualifications of MIL-G-1092 or NATO code G-403
2. *Water Wash-Off Resistance*
 - Excellent resistance to water wash-off
3. *High Dropping Point*
 - Stays stable even at high temperatures

4. *Extreme Pressure Additives*

- Ensures protection under heavy loads
- Compatible with most comparable greases

5. *Food Processing*

- It is approved as H-2 for use in food plants with no food contact

Availability

Sonic Blue Guard is available in 180 kilogram drums, 55 kilogram kegs, 17 kilogram pails and 400 gram cartridges (10 per box, 4 boxes per case).

Typical Properties

Thickener Type	Lithium
Colour	Blue
Base Viscosity @ 40°C	268
Base Viscosity @ 100°C	19.1
Dropping Point	260°C
Unworked Penetration	265/295
Timkin OK Load	60 lbs.
