D-MO Gold Motor Oil

Description

D-MO Gold motor oil has an advanced motor oil formulation that provides performance exceeding the new CJ-4/SM service classification required for 2007 and newer emission compliant engines equipped with diesel particulate filters (DPF Systems). Like D-MO, D-MO Gold provides superior performance in all diesel engines, new and old. Drain intervals do not need to be reduced when D-MO Gold is used in 2007 and newer engines in conjunction with ultra low sulphur diesel (ULSD).

Application

D-MO Gold is recommended for use in all diesel engines. It meets current API qualifications of CJ-4 and is backward compatible to previous API diesel motor oil specifications such as CI-4 PLUS, CI-4 and CH-4. D-MO Gold is approved for Cummins CES 20081, Detroit Diesel PGOS 93K218, Mack EO-O Premium plus '07, Volvo VDS-4, Caterpillar ECF-3 and ECF-1, ACEA E7, MB 228.3 and MTU Type II.

Performance Features

D-MO Gold provides exceptional performance benefits in the areas of:

- Wear protection
- Oxidation resistance
- Piston deposit control
- Soot control for protection against abrasive wear and soot induced oil thickening
- Improved oil consumption
- Improved valve train wear protection

Availability

D-MO Gold 15W40 is available in 205 litre drums, 20 litre pails, 5 litre jugs (4 per case) and 1 litre bottles (12 per case). D-MO Gold 10W30 is available in 205 litre drums and 20 litre pails. D-MO Gold 0W40 SL is available in 20 litre pails.

Typical Properties

SAE Grade	15W40	10W30	0W40 SL
Kinematic Viscosity @ 40°C, cst	117.2	81.5	n/a
Kinematic Viscosity @ 100°C, cst	15.2	11.95	n/a
Viscosity Index	135	139	n/a
Pour Point	-34°C	-45°C	n/a
Ash	0.95	0.95	n/a
